ABOUT ME

Acommitted student leader who believes that an organization must serve as both a voice for the
students and a bridge to the department. Focused on unity, communication, and accountability, I
aim to build a connected and efficient organization where every student is represented and heard.

PLATFORMS

- Student Voice & Representation
- Ensuring student concerns are heard, addressed, and elevated to the depart-m
- Strategic Communication
- Establishing clear, consistent, and organized communication systems.
- Operational Excellence
- Improving internal coordination and workflow efficiency.
- Unity & Camaraderie
- Strengthening relationships among officers, members, and students.
- Operational Excellence
- Improving internal coordination and workflow efficiency.
- Transparency & Accountability
- Promoting openesss in leadership, decisions, and responsibilities.

PROJECTS

Tocreatereal impact, I aim to implement initiatives that are practical, student-centered, and responsiveto the real needs of IT students.

- Integrated Student Support System (IS³)

A centralized platform that combines student concern tracking, announcements, resource access (such as equipment borrowing), and peer academic support into one system. It also includes regular student check-ins to ensure that concerns are heard and addressed in real time.This project ensures services are more accessible, organized, and efficient for every student.

- IT Skills Boost Series

A series of short, student-friendly workshops and sessions focused on practical IT skills such as coding basics, debugging, system development, and project building.This helps students gain confidence, improve competence, and stay prepared for real-world IT demands.

- Stronger Link: Student–Org Communication Drive

An initiative focused on improving transparency and communication between officers and students through consistent updates, clear announcements, and open channels.
This ensures that students are always informed, involved, and heard within the organization.

SOFT SKILLS

- Calm and Composed Decision-Making
- Idon't react impulsively—Ithink, reflect, and respond in a way that protects both people and outcomes.
- Empathy with Boundaries
- I understand people, but I also know when to stand firm. This balance helps in fair and respectful leadership.
- Clear Communication
- Able to express ideas in a way that is honest, direct, and easy to understand.
- Growth-Oriented Mindset
- Open to feedback and always willing to improve—not just for myself, but for the people I serve.

CREDENTIALS

My candidacy is rooted not only in experience, but in self-awareness, growth, and a genuine desire to serve. I believe leadership is not about titles—it's about being present, listening, and making sure no student feels unseen or unheard.
Through my journey, I've learned when to step up, when to step back, and how to choose what truly matters. I aim to bring that same clarity, calmness, and purpose into serving our department.

- Leadership & Involvement
- Active Student Leader & Participant
- Engaged in academic and organizational activities that strengthened my ability to communicate, collaborate, and adapt in different environments.
- Team Collaborator in Academic Projects
- Contributed to group initiatives such as business proposals, presentations, and technical tasks—ensuring ideas are heard and executed effectively.
- Initiative-Taker
- Not someone who waits to be told what to do—I step in where I see gaps, whether in coordination, communication, or support.

Technical & Professional Development

IT Student with Focus on Practical Skills

- Continuously developing skills in programming (Java), problem-solving, and
- system thinking through coursework and hands-on activities.

Project-Based Learning Experience

- Worked on outputs such as system concepts, proposals, and technical
- exercises that simulate real-world IT applications.

Detail-Oriented & Analytical

- Applies critical thinking when solving problems—especially in debugging,
- structuring ideas, and organizing information clearly.
