MYKA ANGELA L. DUMAEL

P.E.A.K. PARTYLIST

Position: Running for Auditor **Course/Program:** BS in Information Technology
Year level: 1st Year **Section:** BSIT - 1I

ABOUT ME

Numbers reflect trust, and trust requires accountability. As a BSIT student, I am committed to being organized, detail-oriented, and responsible—qualities needed for an effective auditor. I'm not running just to hold a position, but to ensure transparency and proper handling of our organization's funds. If given the opportunity, I will maintain accurate records, promote accountability, and make sure every resource is used wisely.

PL ATFORMS

As Auditor my Vision is to promote a balanced and responsible management of funds where expenses are carefully planned—not too excessive, not too limited—but just right to achieve the best possible outcomes. I aim to ensure that every budget is used wisely and efficiently, prioritizing transparency and accountability in all financial matters. Through proper auditing and monitoring, I will help ensure that every event remains cost-effective while still delivering high-quality results and meaningful experiences for everyone in the CCS community.

PROJECTS

To turn my commitment into meaningful action, I will focus on building transparency, accountability, and trust through the following two projects:

The Transparency Ledger - is a system where all CCS funds are recorded, checked by the Auditor, summarized, and shared so students can clearly see how their money is used, while school-provided funds are coordinated with the administration and only shared in a way that is allowed. This ensures full transparency, accountability, and trust within CCS.

Early Participation Reward System (For Intrams) - that offers tiered discounts and small sponsor-provided souvenirs to the first 100 students to encourage early participation and fairness. As Auditor, I will ensure all ticket sales, discounts, and sponsor contributions are properly recorded for transparency and accountability. Overall, this aims to make Intrams more organized, fair, and beneficial for all students."

SOFT SKILLS

- Leadership
- Confidence
- Communication Skills
- Adaptability Initiative
- Team work Advocacy
- Active Participation

CREDENTIALS

As I run for Auditor, I bring with me a strong sense of accuracy, responsibility, and integrity. These qualities guide my commitment to ensuring transparent records, organized financial tracking, and trustworthy reporting for the organization.

Leadership & Organizational Experience

• Consistent Class Officer (Elementary to Senior High School)
Held different class officer positions throughout my academic years, developing strong leadership, responsibility, and teamwork skills in managing class-related duties and activities.

•Also a recipient of the Consistent Service & Leadership award, which reflects my dedication, reliability, and continuous commitment to serving responsibly.

Advocacy & Student Engagement

•Outreach Programs & Community Services - My involvement in outreach programs and community service has strengthened my sense of responsibility, discipline, and accountability, values I will apply as Auditor.

• Seminar Participant (Youth Development)
Regularly attends seminars focused on youth leadership and development, strengthing my knowledge and understanding student leadership roles and responsibility.
